MEMORANDUM

DATE: **APR 1 1992**

SUBJ: Environmental Benefits review outcome for Ciba Geigy,  
RID001194233

FROM: Gary Gosbee, Chief *G. Gosbee*  
MA & RI Waste Regulation Section

TO: File

On March 10, 1992 Ciba Geigy underwent an environmental benefit review to complete determination of the facility's environmental priority. Based on this environmental benefit review the environmental priority of the facility is **HIGH**.

The NCAPS based environmental significance category of HIGH for this site was adopted as the environmental priority of the facility.

The NCAPS based environmental significance was adopted as the facility's environmental priority because the environmental benefit review found no factors to warrant assigning an overall environmental priority different than the environmental significance of the facility.

To my knowledge this is the first environmental benefit review of this facility.
